

Hi my name is Colton Zimring I am in journalism for many different reasons. To start I like writing about current events that are interesting and our current in everything I do around school, also I get to work with lots of fun people to create stories and interview kids and teachers throughout the school which I find fun cool and interesting. I like attending Lakewood ranch because I have learned so much here have so many friends and also have played a couple of sports here and still do. One goal I have for this year is to help the baseball team reach the state championship and win the championship.
